

SAME NAME MULTIPLE TIMES IN MERIT LIST

It is found that many candidates have applied multiple times possibly by clicking the “SUBMIT” buttons repeatedly which resulted in the appearance of same candidate multiple times in the system generated merit list. Therefore it is notified to all candidates to consider the multiple entry of same candidate as a single entry because her candidature will be considered only once. Eventually candidates who are now at merit position below the merit position of a “multiple entry candidates” will automatically upgrade in the list.
